DATE	July 7, 2025 – July 11, 2025	AREA ASSIGNMENT	ICTO
TASK	Website Development	SHIFT/TIME	8am – 5pm

In the twelfth week of our OJT, we presented the updated version of the Biñan City website once again to the City Information Office—this time including the head of the department. We showcased the improvements based on their previous feedback, particularly the adjustments to the color scheme and other UI refinements. The head of the office expressed satisfaction with the website's modern and clean design, noting that it was a significant improvement from the earlier version. They also mentioned their willingness to provide additional data that we could use for testing and further enhancement of the site's content and features.

DATE	June 30, 2025 – July 4, 2025	AREA ASSIGNMENT	ICTO
TASK	Website Development	SHIFT/TIME	8am – 5pm

During the eleventh week of our OJT, our team presented the current progress of the Biñan City website to a representative from the City Information Office. The stakeholder acknowledged the improvements and noted that the site now looks more modern and user-friendly compared to its previous version. However, some feedback was provided, mainly regarding the color scheme. The representative suggested adjusting certain colors to better align with the city's branding. Moving forward, we took note of these suggestions and planned revisions, accordingly, continuing to use CodeIgniter 4, PHP, and Bootstrap as our main development tools.

DATE	June 23, 2025 – June 27, 2025	AREA ASSIGNMENT	ICTO
TASK	Website Development	SHIFT/TIME	8am – 5pm

In the tenth week of our OJT, we continued updating the user interface of the Biñan City website. Our tasks mainly involved making visual improvements, refining element alignment, and optimizing the layout for better user navigation. Although the changes were mostly minor, they contributed to a more polished and professional-looking site. We maintained our workflow using CodeIgniter 4, PHP, and Bootstrap, ensuring all updates remained consistent with the overall design framework.

DATE	June 16, 2025 – June 20, 2025	AREA ASSIGNMENT	ICTO
TASK	Website Development	SHIFT/TIME	8am – 5pm

During the ninth week of our OJT, we continued refining and updating the user interface of the Biñan City website project. Our focus remained on enhancing the overall user experience by applying UI improvements and ensuring uniformity across all pages. We worked on adjusting spacing, colors, button placements, and responsive elements to align with modern design standards. The development process still involved the use of CodeIgniter 4, PHP, and Bootstrap as our primary tools, and we remained committed to delivering a polished and consistent front-end experience.

DATE	June 9, 2025 – June 13, 2025	AREA ASSIGNMENT	ICTO
TASK	Website Development	SHIFT/TIME	8am – 5pm

During the eighth week of our OJT, we continued with the same development process on the Biñan City website project. Our team focused on polishing previously worked-on sections and making minor adjustments based on feedback. We ensured consistency in design, fixed small layout issues, and continued testing for functionality and responsiveness. As in the previous weeks, we used CodeIgniter 4, PHP, and Bootstrap throughout the development process.

DATE	June 2, 2025 – June 6, 2025	AREA ASSIGNMENT	ICTO
TASK	Website Development	SHIFT/TIME	8am – 5pm

During the seventh week of our OJT, we continued refining various sections of the Biñan City website to enhance both visual design and user experience. This included updates to key areas such as the homepage, careers page, and mission & vision page. We improved layouts, adjusted content alignment, and ensured mobile responsiveness across all these sections. Our team focused on making the pages more informative, visually appealing, and consistent with the city's branding. All updates were implemented using CodeIgniter 4, PHP, and Bootstrap.

DATE	May 26, 2025 – May 30, 2025	AREA ASSIGNMENT	ICTO
TASK	Website Development	SHIFT/TIME	8am – 5pm

During the sixth week of our OJT, we presented our progress to our supervisor, showcasing the features and refinements we had made to the Biñan City website. This included updates to the frontend layout, improved responsiveness, and enhancements to existing sections. We discussed the work completed over the past weeks and received feedback for further improvement. Our development continued to use CodeIgniter 4, PHP, and Bootstrap.

DATE	May 19, 2025 – May 23, 2025	AREA ASSIGNMENT	ICTO
TASK	Website Development	SHIFT/TIME	8am – 5pm

During the fifth week of our OJT, we continued with the same development process as in the previous weeks, focusing on frontend refinement and overall improvements to the Biñan City website. Our team remained consistent in enhancing layout design, fixing interface issues, and ensuring that the site was responsive across different devices. We also continued testing to maintain functionality and user experience. Development was carried out using CodeIgniter 4, PHP, and Bootstrap.

DATE	May 12, 2025 – May 16, 2025	AREA ASSIGNMENT	ICTO
TASK	Website Development	SHIFT/TIME	8am – 5pm

During the fourth week of our OJT, we continued with the website development project for the City of Biñan, with a stronger focus on refining the frontend side. Our team worked on improving the layout, responsiveness, and visual consistency of the interface to ensure a better user experience. We adjusted based on design feedback and testing results, aiming to make the site more intuitive and visually appealing. As with previous weeks, we utilized CodeIgniter 4, PHP, and Bootstrap in our development process.

DATE	May 5, 2025 – May 9, 2025	AREA ASSIGNMENT	ICTO
TASK	Website Development	SHIFT/TIME	8am – 5pm

During the third week of our OJT, we continued our work on the Biñan City website project, maintaining the same development workflow as the previous week. I focused on adjusting the layout of the “Mayor’s Corner” section to improve its appearance and structure. We also updated the existing “News and Events” section to enhance its readability and organization. Additionally, we tested previously implemented features on the admin side to ensure they were functioning correctly. Throughout the week, we continued using CodeIgniter 4, PHP, and Bootstrap for all development tasks.

DATE	April 28, 2025 – May 2, 2025	AREA ASSIGNMENT	ICTO
TASK	Website Development	SHIFT/TIME	8am – 5pm

During the second week of our OJT, from April 28 to May 2, 2025, we officially began working on our assigned project. I was grouped with a team of fellow interns to help update the official website of Biñan. We explored the website to understand its current structure and functionality and began implementing improvements. My specific task was to work on the department page section, where I focused on organizing and presenting department-related information clearly and effectively. Throughout the week, we collaborated closely while using CodeIgniter 4, PHP, and Bootstrap for development.

DATE	April 22, 2025 – April 25, 2025	AREA ASSIGNMENT	ICTO
TASK	Pre Assement	SHIFT/TIME	8am – 5pm

During the first week of our OJT, from April 22 to April 25, 2025, we began with an orientation on Day 1, where we were introduced to the organization's workflows, tools, and expectations. On Day 2, we started the pre-assessment to evaluate our existing skills, which continued through Days 3 to 5. Day 6 was dedicated to checking our pre-assessment outputs, ensuring that our work aligned with coding standards and project requirements. On Day 7, we engaged in further exploration of the tasks we encountered during the pre-assessment phase. Throughout the week, we worked primarily with CodeIgniter 4, using PHP and Bootstrap to build basic web with admin side.
